

30,000 people will DIE today from diseases linked to contaminated drinking water...

**ONE child every
EIGHT SECONDS**

I don't know about you...
but those statistics break my heart!

We here in America enjoy so much that we forget sometime that there are people on our same continent that will die today from a lack of clean water! It's a BIG problem, but I have found a way to be a big part of the solution.

I have an opportunity to give the gift of clean water to the people in a village in Mexico. We may be able to travel to Atoyac, Mexico to drill a much needed water well in the area around a medical clinic.

The goal of this letter is to raise enough money to complete my travel expenses. Your donation will allow me not only to deliver water to a needy village, but Living Water to their thirsty souls. Jesus called us to spread the Gospel to every living creature. I feel that God has given us an opportunity to contribute in this very unique way. Please prayerfully consider if God would have you support me on this trip financially.

Any contribution would be a tremendous blessing and an incredible help. Thank you for your support whether it be financially and prayerfully. You are as much a part of this outreach as I am.

For the Thirsty,

Jason Harris
